Overall Band Score			
Overall	6.5	Competent User	
Test	Score	Your result explained	
		<p>Test takers at Band 6 can typically follow extended speech and understand detailed instructions. They can generally understand directly-stated facts, attitudes, opinions and purposes. They can also generally pick out main ideas, and relevant and irrelevant information, and can also generally infer implied meanings. They can do this without having to process individual words and structures and can remember enough of what they have heard to understand references such as pronouns. They can understand most vocabulary relating to a range of topics, including some terms typical of academic English.</p>	
Listening	6.0	<p>Test takers at Band 6 can typically deal with a range of factual and opinion-based texts that may be relatively complex and dense with information. They are good at using their vocabulary knowledge to create meaning, both within and across sentences, on a range of general topics and some specialised ones. They can understand implied meanings, and have some ability to understand somewhat complex opinions and arguments. They can generally use reading strategies such as skimming and scanning, and can generally synthesize information and draw inferences.</p>	
Reading	6.0	<p>Test takers at this band can typically speak with ease, clearly and at length, although with some repetition, self-correction, or hesitation to search for words or grammar. Speaking is generally well-organised, and ideas are generally clear and well-linked. They use a range of vocabulary to discuss a variety of topics, and can use some less common or idiomatic vocabulary, although not always accurately. They can paraphrase well if needed. They can use a range of grammar structures. Sentences are frequently accurate, although there are some errors. Pronunciation is generally natural and clear, but with occasional problems. They are usually easy to understand, and their accent does not have much effect on understanding.</p>	
Speaking	7.0	<p>The test taker has an effective command of the language despite some inaccuracies, inappropriate usage and misunderstandings. They can use and understand fairly complex language, particularly in familiar situations. Advice to improve your score</p> <p>Continue to develop your vocabulary by reading widely. Listen to as much English as you can so that your understanding becomes more automatic. Listen to longer recordings such as interviews and films, with and without English subtitles, pausing and repeating the recording when necessary. Note the words you didn't understand immediately, so you can review them. Try to understand those times when the speakers don't directly say what they mean. What are the clues you use to understand these in your own language? Use the same strategy to understand them in English.</p> <p>Try to read different types of texts, including general and academic texts, and not just in your subject area. In general interest articles, the main point may come in a different place than you expect. In academic texts there will be fewer opinions, or they may be harder to spot. On the other hand, they can be dense with information. Be aware of the differences, and adjust the reading strategies you use depending on the text you're reading. Decide when to read carefully and when to read quickly. In any case, you may want to give yourself a set amount of time, so that even your careful reading is done more quickly and efficiently.</p> <p>Talk to other people about abstract and difficult current issues. Focus on delivering your ideas well in presentations and discussions, minimising hesitation as much as possible. Ask yourself: Am I arranging and conveying my thoughts in the best possible way? Am I using the best possible words and phrases that I know to express my ideas? How can I vary my delivery so that my ideas are understood better? Then work on those things you're not completely happy with yet. Continue reading and listening to natural English language materials and TV to note precise words and particularly effective ways of saying things. Think about how you might use these yourself.</p>

On behalf of the Applied Modelling & Quantitative Methods Graduate Program at Trent University, I am delighted to offer you admission as a full-time, course-based M.Sc. student in the Big Data Analytics stream commencing January 2023. Congratulations!

As a student in the School of Graduate Studies at Trent, you will become part of an outstanding, close-knit community of scholars. Here, we are dedicated to helping you reach your highest academic potential and ensuring you have an extraordinary time along the way.

Admission Conditions

Your admission is conditional pending receipt of the following documents/requirements:

- Official transcripts and proof of degree completion from all post-secondary institutions attended must be received within 60 days after the date of the letter of offer.
- **Please note: To be considered official, all transcripts must be received in an envelope that has been sealed by the issuing institution and mailed to the School of Graduate Studies, 1600 West Bank Dr., BH 115, Peterborough, Ontario, K9L 0G2.**

Fees and Financial Assistance

Please read the following carefully:

- We are unable to offer financial assistance to you during the course of this program. It is essential as a graduate student that you have sufficient funds to support yourself for the duration of your studies. Current annual costs for a graduate student living away from home including living expenses and books are estimated at \$20,000 - \$25,000 per year. Additional costs may be incurred depending on factors such as lifestyle and the number of family members being supported (if applicable).
- In addition to living expenses, students are required to pay tuition fees for each term of enrollment of this 16-month (4-term) program.
- Tuition and compulsory ancillary fees and levies for the **first term** are approximately \$10,145. **First term fees are due January 1, 2023.** Final fees for the 2022-2023 academic year will be posted on [our webpage](#) once approved.
- **Upon acceptance of this offer you will be required to make a \$2,500 tuition deposit by October 1, 2022** to hold your place in the program. The deposit will remain on your account and be applied against your first-term tuition fees. Payment can be made by accessing the *Grad Acceptance Payment* icon under the Finances tab in the myTrent portal.

Study Permits

- As a prospective international student, we invite you to contact Trent International (international@trentu.ca) if you have questions about the process for obtaining study permits and visas and moving to Canada.

* Normalized marks for Civil Engineering (CE), Computer Science and Information Technology (CS) and Mechanical Engineering (ME) Papers.

** A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which valid category certificate, if applicable, is produced along with this scorecard.

The GATE 2021 score is calculated using the formula

$$GATE\ Score = S_g + (S_t - S_g) \frac{(M - M_g)}{(\bar{M}_t - M_g)}$$

where,
M is the marks obtained by the candidate in the paper, mentioned on this GATE 2021 scorecard
M_g is the qualifying marks for general category candidate in the paper
M_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
S_g = 350, is the score assigned to **M_g**
S_t = 900, is the score assigned to **M_t**

In the GATE 2021 score formula, **M_t** is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2021 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.

Prof. Nilesh J. Vasa March 17, 2019
 Organizing Chairman, GATE 2019
 (on behalf of NCB - GATE, for MHRD)

The GATE 2019 score is calculated using the formula

$$GATE\ Score = S_e + (S_t - S_e) \frac{(M - M_q)}{(\bar{M}_t - M_q)}$$

where,
 M is the marks obtained by the candidate in the paper, mentioned on this GATE 2019 scorecard
 M_q is the qualifying marks for general category candidate in the paper
 \bar{M}_t is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-session papers including all sessions)
 $S_e = 350$, is the score assigned to M_q
 $S_t = 900$, is the score assigned to \bar{M}_t

In the GATE 2019 score formula, M_q is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2019 does not guarantee either an admission to a post-graduate program or a scholarship/assistantship. Admitting institutes may conduct further tests and interviews for final selection.
